

Plan No.	5/2023	NQF / Reg. Ref No.	QA5	Plan Date	09/05/2023
1) Name your improvement	Conscious Discipline				
2) Explain why the improvement is needed	Educators can be challenged to support children who display behaviours that do not fit into our cultural expectations. This can increase educators' workload, stress and ability to develop positive relationships with children. Different cultural & professional knowledge & beliefs reflect inconsistent strategies been used to support children in the service.				
3) List the outcomes from the improvement:	• A foundational understanding of the Conscious Discipline Brain State Model and how to create safe, connected and problem-solving environments that allow adults and children to function in their optimal brain state. • Consistency in philosophical understanding of children's behavior • Consistent pedagogy approach in supporting children's social & emotional development. • Educators' that feel competent and supported in working in the classrooms with children.				
4) List any consequences of NOT undertaking this improvement?	• Inconsistent behaviour, support, expectations and consequences used with children. • Higher stress & anxiety levels for educators. • Children with poor developed social & emotional skills & regulation.				
					M
5) Strategies – List the steps, activities and tasks you plan to implement to achieve your improvement					
Short Term			Long Term		
• Have all educators enrolled in the Conscious Discipline course			• Knowledge & skills on conscious discipline is embedded in educators' practices. • Educators support the continuous flow of knowledge to new educators as they join our team. • Educators engage in a lifelong journey of developing, reflecting & implementing conscious discipline teaching strategies.		
From your strategies above list the actions you will take to implement your improvement plan

	Resources bought to support 'I love you Rituals' & emotional learning with children.
	EYLC have hung "I love you rituals", in nappy changing area & are starting to implement their uses before each nappy change.
19/7/2023	All educators have completed session 2 webinars & Room Leader completed 2 hours round table discussion facilitated by Natalie. Take away information was how the brain functions in 3 main states: • Executive state – What can I learn? • Emotional state – Am I loved? • Survival state – Am I safe? Educators can identify key behaviours that signal as to which state they and children are in. Start to learn skills to move themselves & children back into the executive state. Goal: to implement 'I love you rituals', into every day practices including planning group or transition times.
